

HSG ASIA TERM 2023 – CREDIT TRANSFER LIST

Rules for Crediting

1. **Mandatory course programme (21 ECTS):**

- 2 mandatory Asia Term core courses (9 ECTS): Business Consulting (6 ECTS) [except for BIA/BLE/Blaw students] and Business Development in Asia (3 ECTS)
- At least two elective courses à 6 ECTS (12 ECTS)
- In case of failing the mandatory Asia Term core courses and/or failing to achieve the minimum number of credits (21 ECTS) and/or not attending the “Asia Term Social Project” no Asia Term achievements will be considered for credit transfer.

2. **Additional Electives can be chosen according to the following rules:**

- The maximum number of credits to be credited for the Asia Term is 35 ECTS – with not more than four elective courses à 6 ECTS (24 ECTS in total) [and Business Consulting as Capstone Project (8 ECTS) for BBWL students].
- All electives, with the exception of the Business Study Mission, are subject to fulfilment of the respective course prerequisites and successful bidding through the SMU Bidding System.
- In general, the number of seats per elective is limited, and hence there is *no guarantee* that a specific elective can be chosen (with the exception of the course “Business Study Mission”, which is guaranteed for all Asia Term Participants).
- Students can only participate in one Business Study Mission. Preferences can be submitted during the course preference survey in spring (sent by the Asia Term administration team/SGI). If the capacity of one Business Study Mission is exceeded, allocation of seats will be random (draw by lot).
- When crediting the courses to their HSG major, it is up to the students to decide how many credits, and, if several options are given in the credit transfer list, in which course area(s) they want their courses to be credited-

3. **New Guidelines at HSG (valid from 2023) for the creditability of courses during the exchange term include the following:**

- “Asia Term core courses” and elective courses which are conducted by SGI-HSG faculty in Singapore (namely, Business Consulting, Business Consulting as Capstone Project in International Management, Business Development in Asia, and the Business Study Missions) will automatically be credited to your HSG studies with grade.
- All other Asia Term courses with passing grade will be credited as passed (crediting optional). These courses won’t influence the grade point average. However, they will be shown separately on the lower part of your Bachelor transcript with title and converted grade.

Rules for Majors of BBWL:

- The four compulsory subjects “Methods: Statistics”, “Methods: Empirical Social Research”, “Fundamentals and Methods of Computer Science”, and “Introduction to Operations Management” must be attended at the University of St.Gallen.
- The other HSG core courses (e.g. Marketing, Strategy, Corporate Finance, Micro 2, and Macro 2) can be taken during the Asia Term at SMU, depending on availability of the courses via bidding.
- Surplus credits from HSG core courses can be credited towards the respective specialisation, e.g. Financial Accounting towards the specialisation Accounting, Controlling Auditing or Strategy towards the specialisation Strategic Management. In total a maximum of 8 ECTS core electives can be credited towards a specialization.
- The Capstone Project (Business Consulting) will be credited in the specialisation International Management. Even if you take the Capstone project in International Management (Asia Term) you can still achieve a different voluntary specialisation in your Bachelor studies. Please see the regulations for achieving a voluntary specialisation on Studentweb: [BBWL Voluntary specialisation \(sharepoint.com\)](https://www.sharepoint.com)

Asia Term Core Courses

Course	Major specific crediting				
	BBWL (under 2019 regulation)	BVWL	BIA	BLE (under 2021 regulation)	Blaw (under 2021 regulation)
Business Consulting (MGMT232; mandatory)	6 ECTS Core electives SoM	6 ECTS Core electives SoM	6 ECTS Global Challenges	4 ECTS Electives	Crediting not possible
